

The background features faint, light-gray line art sketches. On the left, a robot is depicted from the waist up, wearing a helmet with multiple circular visors and holding a large, cylindrical object. On the right, a spaceship or mecha is shown from a side profile, featuring a long, multi-barreled weapon mounted on its upper section. In the bottom right corner, there is a detailed sketch of a large, complex mechanical structure, possibly a spaceship's hull or a large robot's base, with various panels, pipes, and structural elements.
